

Łukasz Klimkiewicz

I am a master's degree student, already with some experience, looking for a position to further develop his skills. I am hungry for knowledge and I try to make it as extensive as possible, not limited to few technologies. I gladly use it to solve practical problems.

Education

- 2022-03 - present **Artificial Intelligence and Machine Learning, Master's degree**
Lodz University of Technology, Łódź
- 2018-10 - 2022-02 **Informatics, Engineering studies**
Lodz University of Technology, Łódź

Experience

- 2021-07 - 2021-10 **Junior developer (internship)**
Ericsson, Łódź
Work in a team of six developers in SCRUM methodology on projects requiring knowledge of Python and SQL.
- 2022-07 - 2022-12 **Ruby on Rails Developer (internship → part time)**
HTD Health, Łódź
Work on healthcare projects in agile methodology. Responsibilities included implementation in Ruby on Rails, deployment and taking part in meetings with clients.

Selected projects

2022-03

Services - mobile applications

I was able to create two mobile applications, which make communication between contractors and clients easier.

2022-01

Lend Me - mobile application

In a team of four developers, we created a mobile Flutter application to manage borrowing and lending items.

2021-02

Social Insight - web application

In a group of two, we created a web application in Python that analyzes data from Facebook and visualizes it in an accessible form.

Soft skills

Teamwork

Creativity

Problem-solving

Determination

Time management

Curiosity and continuous learning

Hobby

Logic puzzles, Swimming, Star Trek, playing the keyboard
